400th Edition of the DX-World bulletin –by Bjorn ON9CFG

Already the 400th bulletin today! 400 weeks non stop...time goes by so fast since the first bulletin written on July 18 2013. I remember the first 10 or 20 editions with only 3 or 4 pages, nowadays we publish around 10 pages every week, so it became more interesting for a readers, more pictures etc.

Allow me to thank Col MM0NDX, the founder of DX-World who introduced me in the team and allowed me to publish the bulletin every week. In the very beginning I remember I mailed Col a trial version and after a few hours I got a mail back saying: welcome aboard. So it was the beginning of a very nice friendship and the birth of the weekly DX bulletin.

The team and I went a couple of times to Germany at the yearly ham radio fair, we did an DXpedition to Buyukada Island as TC0AX, more is coming by the way in the near future.

For me, at this point I put more time in the bulletin then in airtime...I think my last QSO was over a year ago...But that doesn't bother me...I have plans to go back on air very soon and fill some band slots.

Also, thank you readers of the bulletin, providers of information,...without you we wouldn't exist anymore.

Solo DXpeditions in the Pacific by ZL1BQD

Roly ZL1BQD shares his adventures traveling the Pacific islands as a one-man DXpedition. Presented to the Edmonds Woodway Amateur Radio Club on 8 April 2021.

K3LR interviews N6PSE about 3Y0J

If you missed the live interview earlier with DX Engineering's Tim K3LR, and the 3Y0J co-leader, Paul N6PSE, then here's your chance to watch.

If you do not have a Facebook account, the interview will soon be available on the DX Engineering You Tube **channel**, too.

CY0C Sable Island –postponed

The Sable Island CY0C DXpedition team was informed this week by the Parks Canada-Sable Island manager that our scheduled October 2021 Sable DXpedition would have to be postponed due to the ongoing Covid-19 pandemic. Furthermore, because of the pandemic, Parks Canada is behind on their island maintenance projects and the Visitor Quarters will not be available for the DXpedition team. The Sable Island manager did extend an invitation to the team for October 2022, which the team unanimously accepted.

Obviously, the Sable Island DXpedition team is disappointed in not being able to follow through with the 2021 CY0C DXpedition. Hopefully the solar numbers and propagation will be much improved in October 2022.

Since the 2021 CY0C DXpedition is not possible, the Sable DXpedition team is offering a couple of options to the many foundations, clubs and individuals who have already sent financial support. We are offering complete refunds to those who request a refund. If you would like us to apply your contribution to the 2022 CY0C DXpedition, that will be available as well.

Albums –QSL and IOTA of the Day

As well as appearing on the main DX-World website, all images relating to **DX-World QSL of the Day** and **DX-World IOTA of the Day** can also be found on **Facebook** as separate albums which are updated daily. Both these features are very popular with many operators sending their choice of QSL or IOTA. Feel free to **send yours** – credit given !

E6AM and A35GC Niue/Tonga postponed

2021 planned DXpeditions to Niue and Tonga now postponed due to Covid travel restrictions.

October/November 2022 now bookmarked for this DXpedition.

Following info was recently posted on the SP7IDX Hexbeam website:

We regret to inform you that Waldi SP7IDX passed away suddenly on 04/04/2021. He was the heart and soul of SP7IDX Hexbeam Technology. It is a loss that is hard for us to recover from.

At the same time, we would like to inform all customers of the company who have placed an order or plan to do so that we are currently organizing Waldi's corporate and personal matters. Due to the completely sudden and unexpected death of Waldi and the long legal procedures in Poland, it may unfortunately take some time.

We will do our best to fulfill orders already placed. Due to the enormous know-how that only Waldi had, this may take some time. At the moment, we are organizing official and financial matters. In the next one, we will decide on steps related to orders, which we will keep you informed about.

Please be patient and understanding. For our part, we will do everything to ensure that Waldi retains the highest respect and good name in the radio industry.

MS0INT – Bass Rock, EU-123

Now C92RU has gone QRT, there's only one DXpedition to chase!

Col MM0NDX has put together a quick downloadable sheet so you can keep track of the team's plans. [[pdf](#)] or [[ZIP](#)].

Important to note the webcams mentioned should be running. The team will also try to live stream from the island, possibly via DX-World or personal Facebook pages.

DX-World sponsors Sasstown United –by Col MM0NDX

I've had an affection with Liberia ever since 2017. The people there are very nice, welcoming, happy and helpful.

The first visit to Liberia in 2017 was of course not a great memory because the objective to activate AF-111(NEW) failed. Thankfully, the second visit proved fruitful and the new IOTA was activated ([EL2EL/4](#)).

It was during this second visit that a friendship was struck up with the village chief in Sasstown (the nearby village to Telengbe island). We often keep in contact via Facebook messenger, and when the plea for help to sponsor some football shirts for the local kids came through, I was very happy to help.

So, as of tonight, DX-World now sponsors **Sasstown United Football Club** in Liberia, West Africa!

This week on air

Russian District Award

<http://rdaward.org/indexeng.htm>

Our diploma program has been around for 20 years, and its main goal is to get cfm for QSO with all districts of Russia.

We have developed an automatic RDA district cfm specifically for fulfilling the requirements of the diploma program:

<https://mydx.eu>

This service makes the participation as easy as possible. You do not need to create an application and send it to the Diploma Manager – all you need to do is to send in your payment and your post address. You can get either one or several diplomas – it is up to you. For your convenience we have created special version of RDA dx-cluster where you can easily see those RDA-s that you don't have confirmed yet.

You also have a possibility to have a sound notification when your unconfirmed RDA is spotted. Go and check it out:
